POST PLAYER: CAT BOON

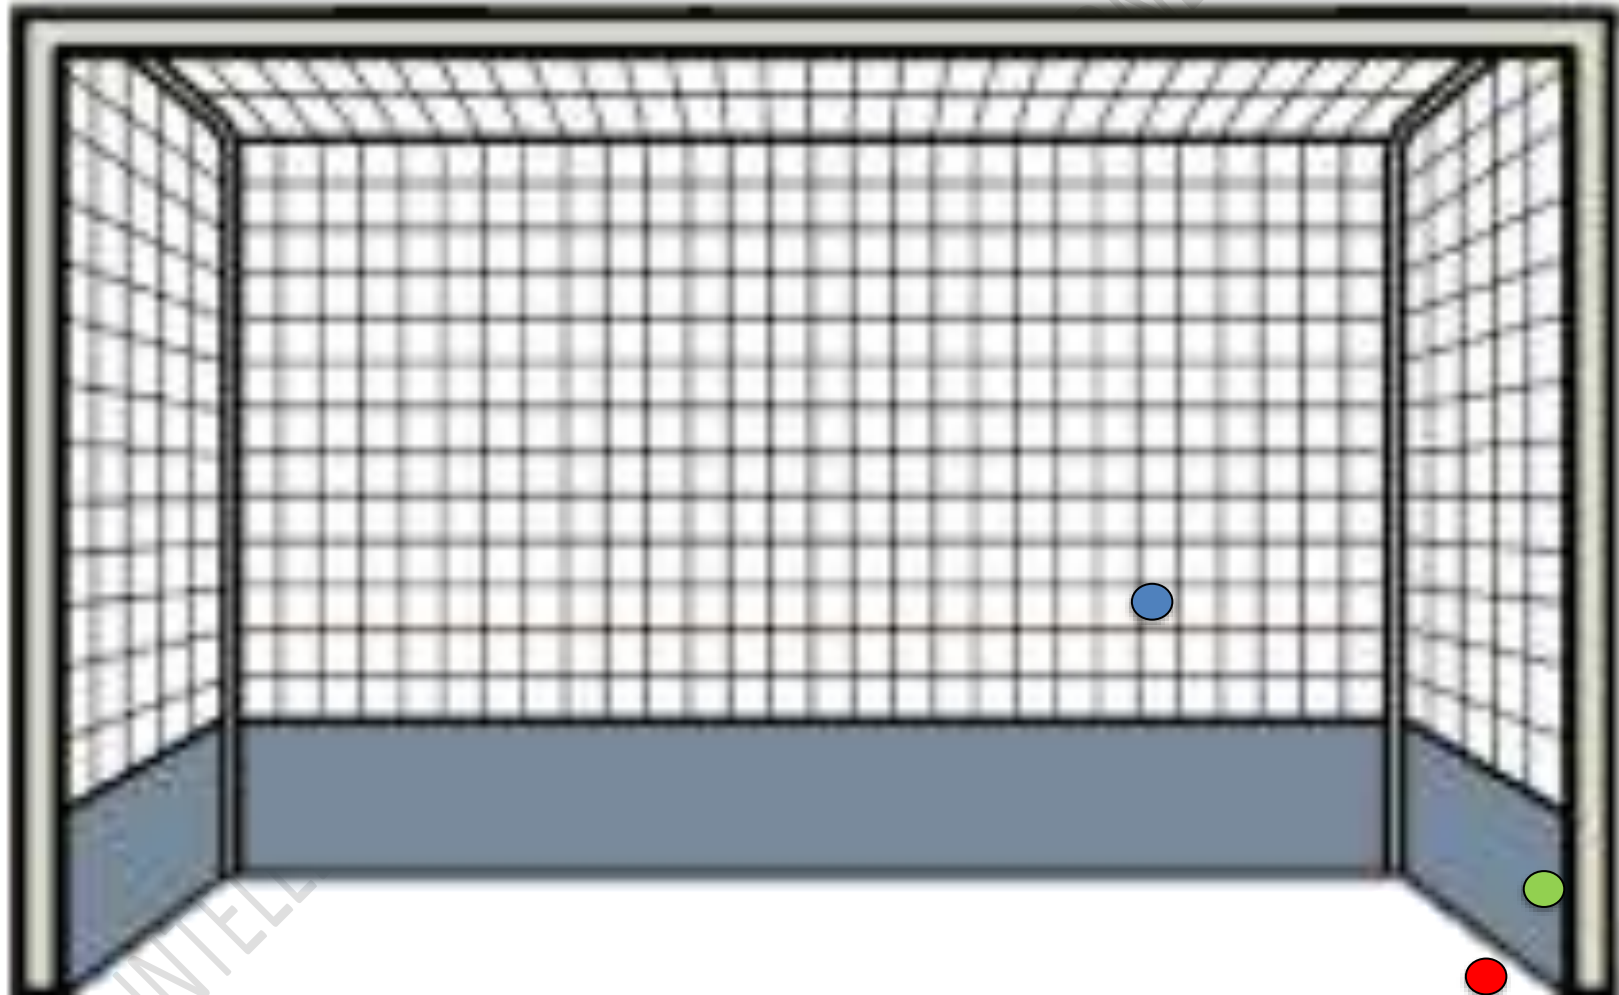

#2

- Saved
- Wide
- Conceded

Only shots on straight corners and right side of the goal recorded with the purpose of analyzing the post player performance. Shots saved by the goalkeeper are not included either since the post player never had an opportunity to save those shots because she is behind the goalkeeper.

TAKEAWAYS & SUGGESTIONS

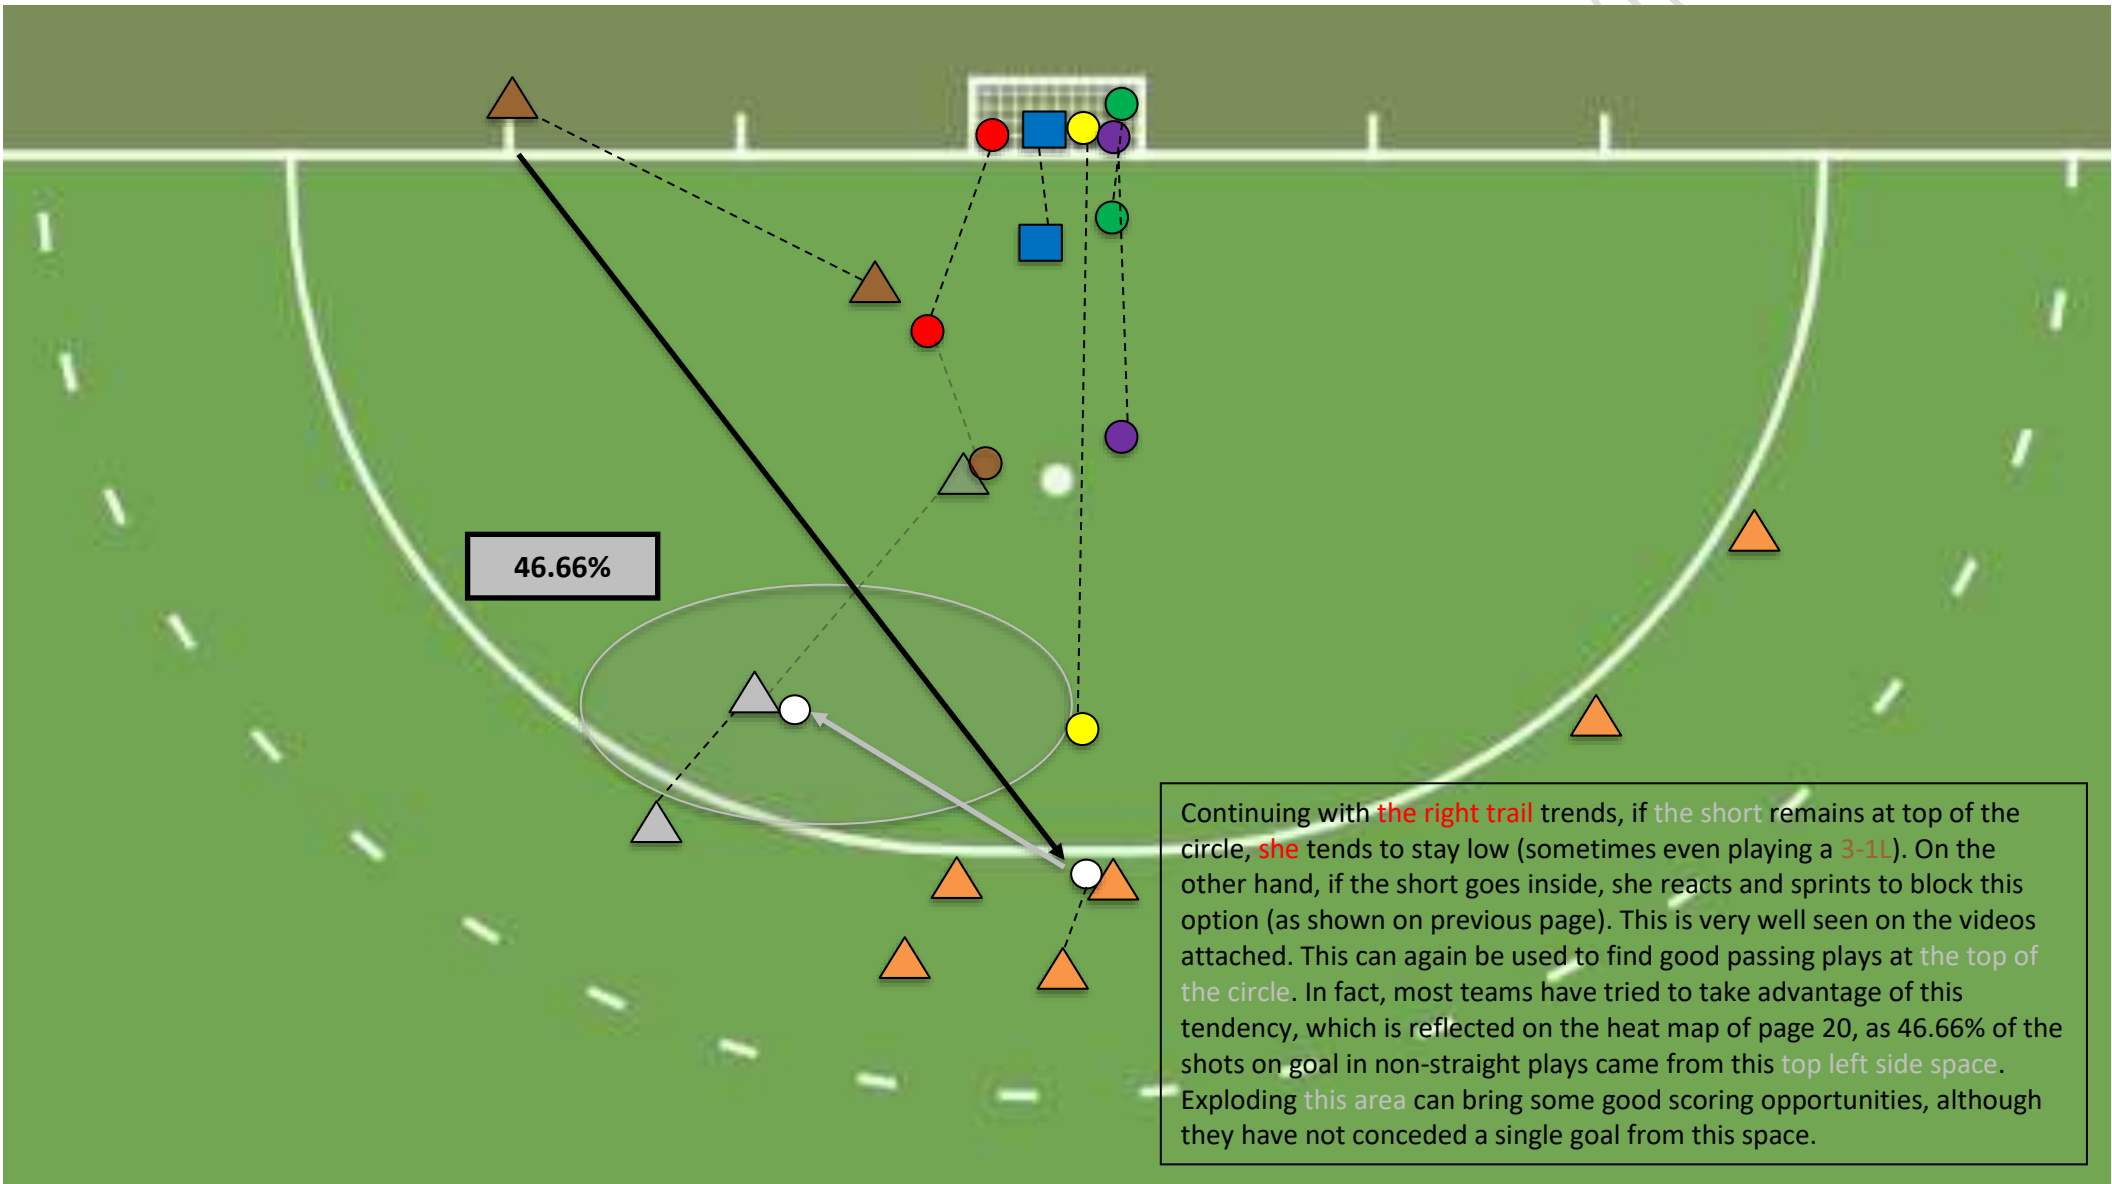

INTELLECTUAL PROPERTY OF PENALTY CORNER ANALYTICS

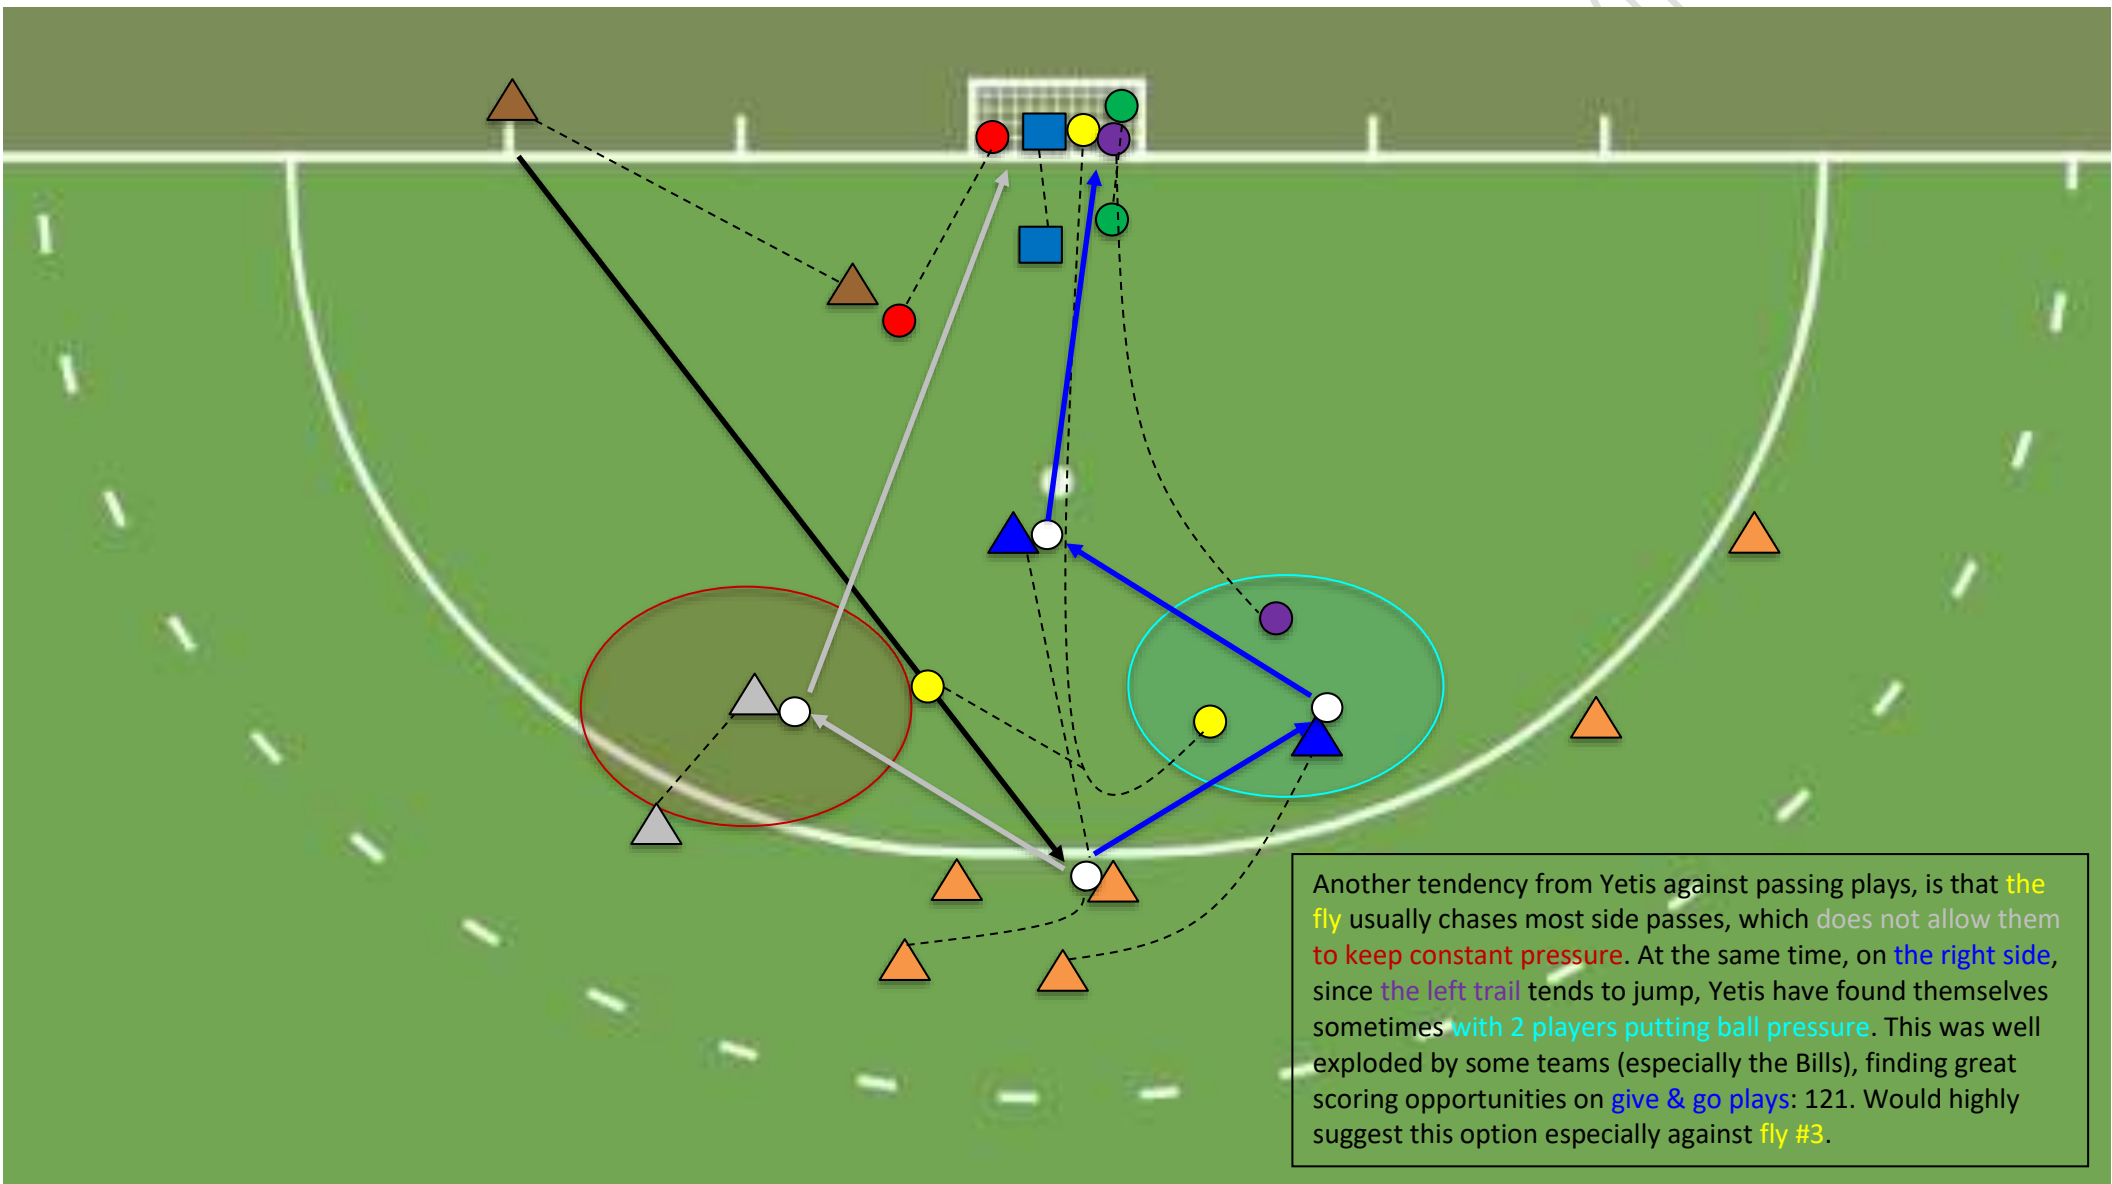

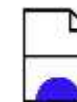

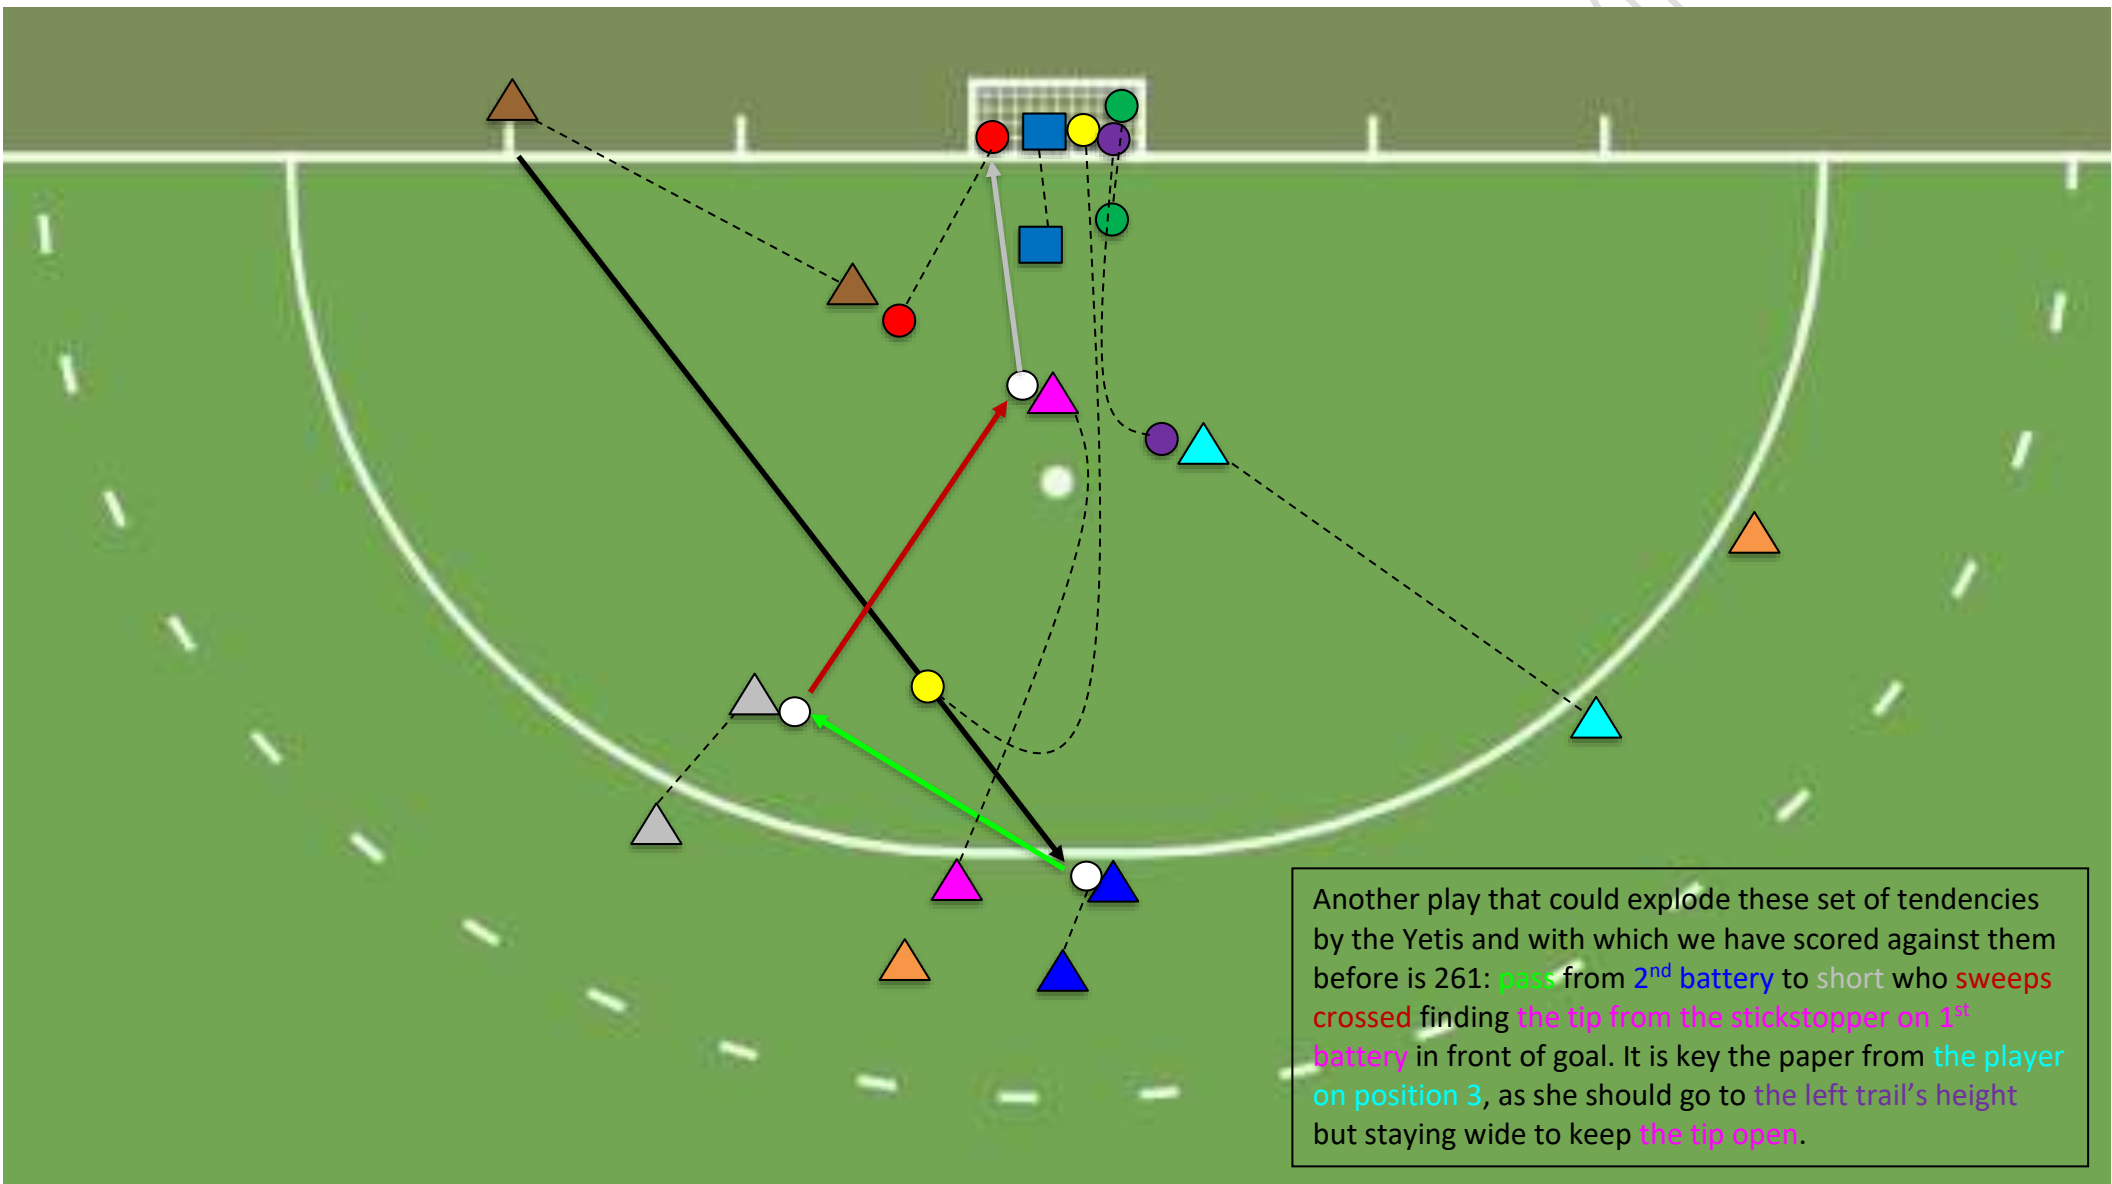

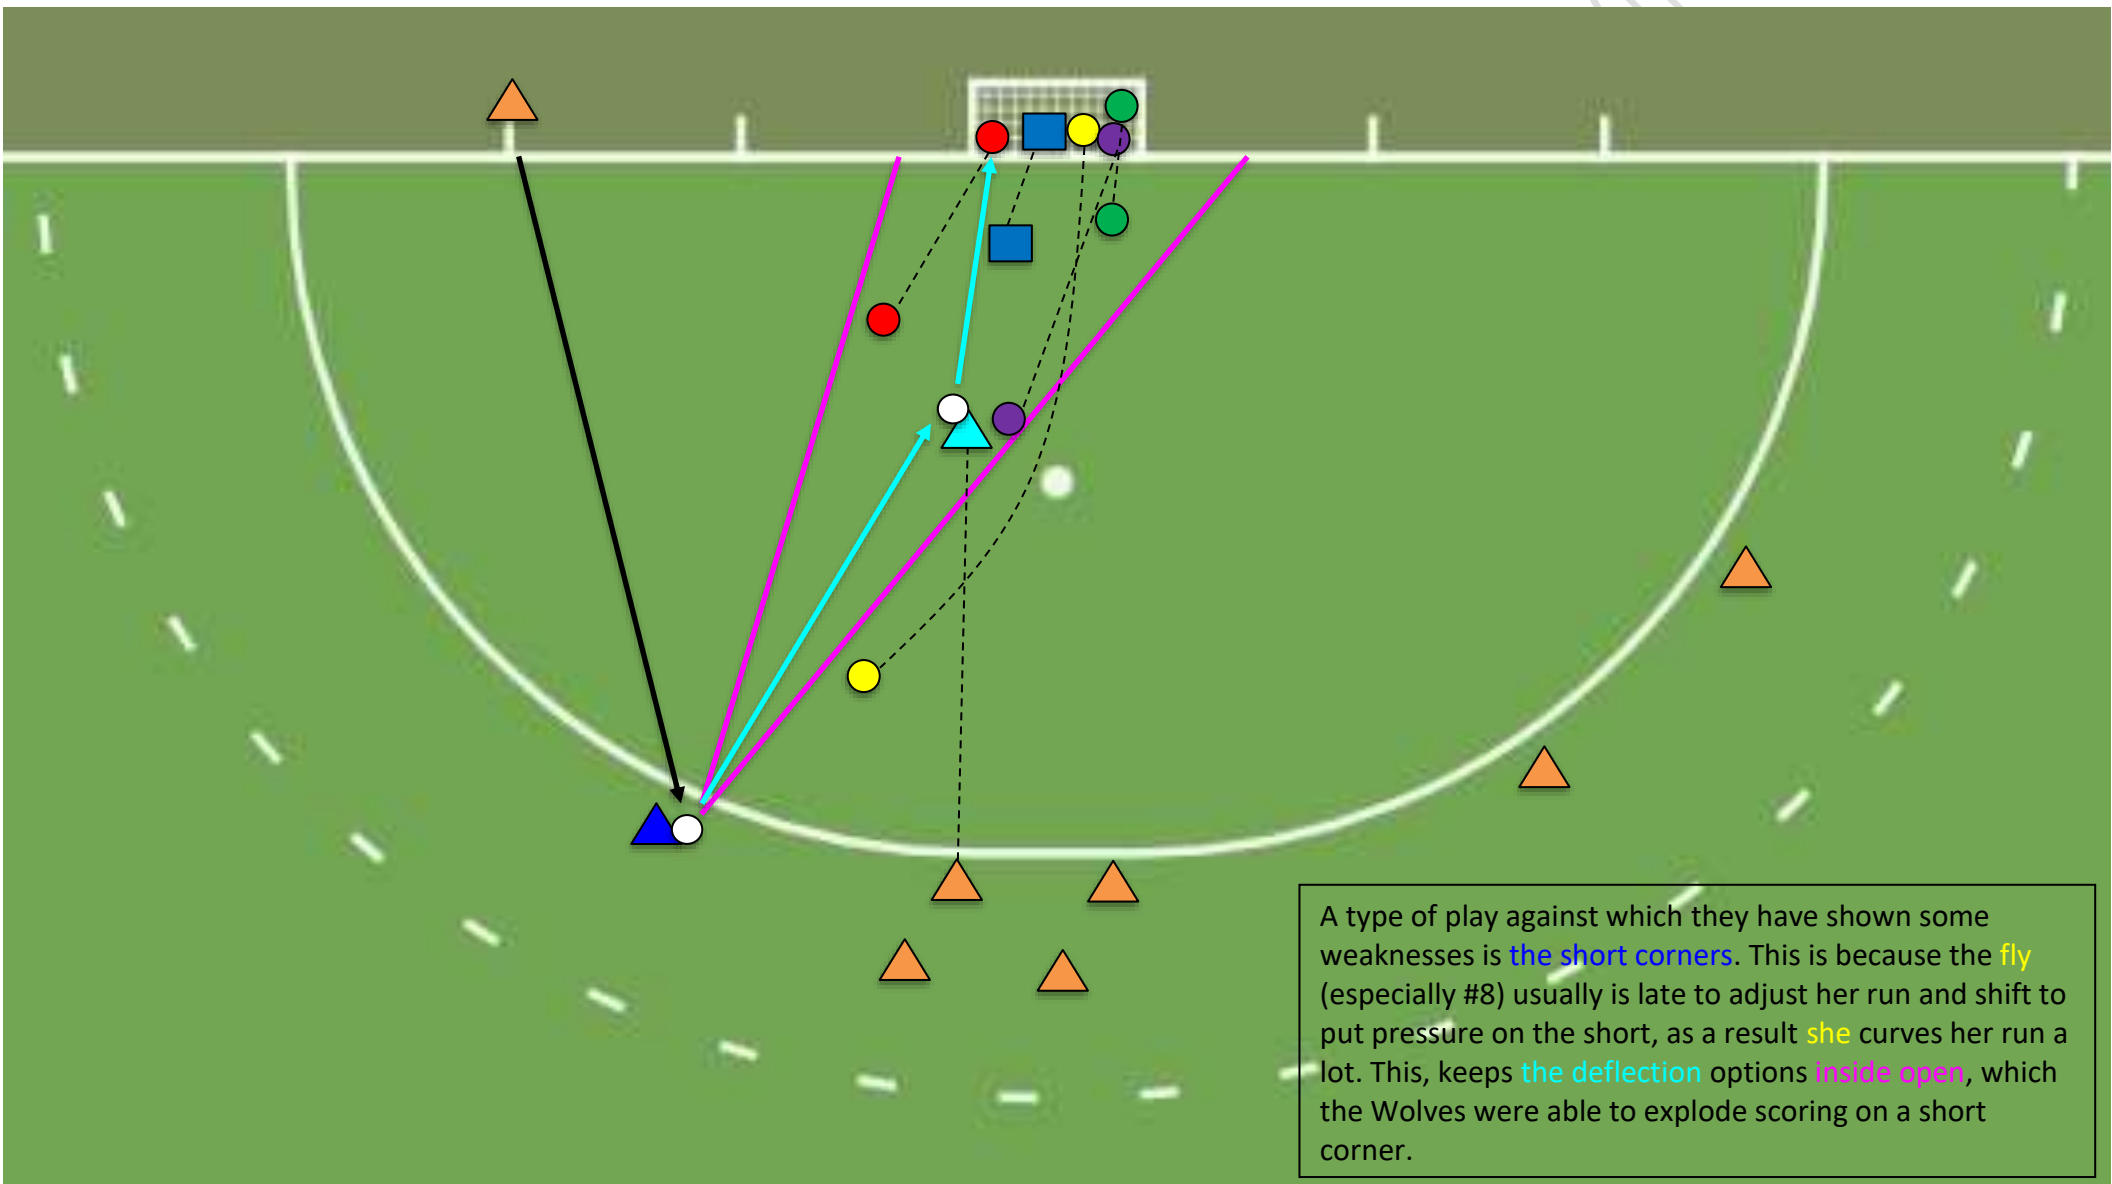

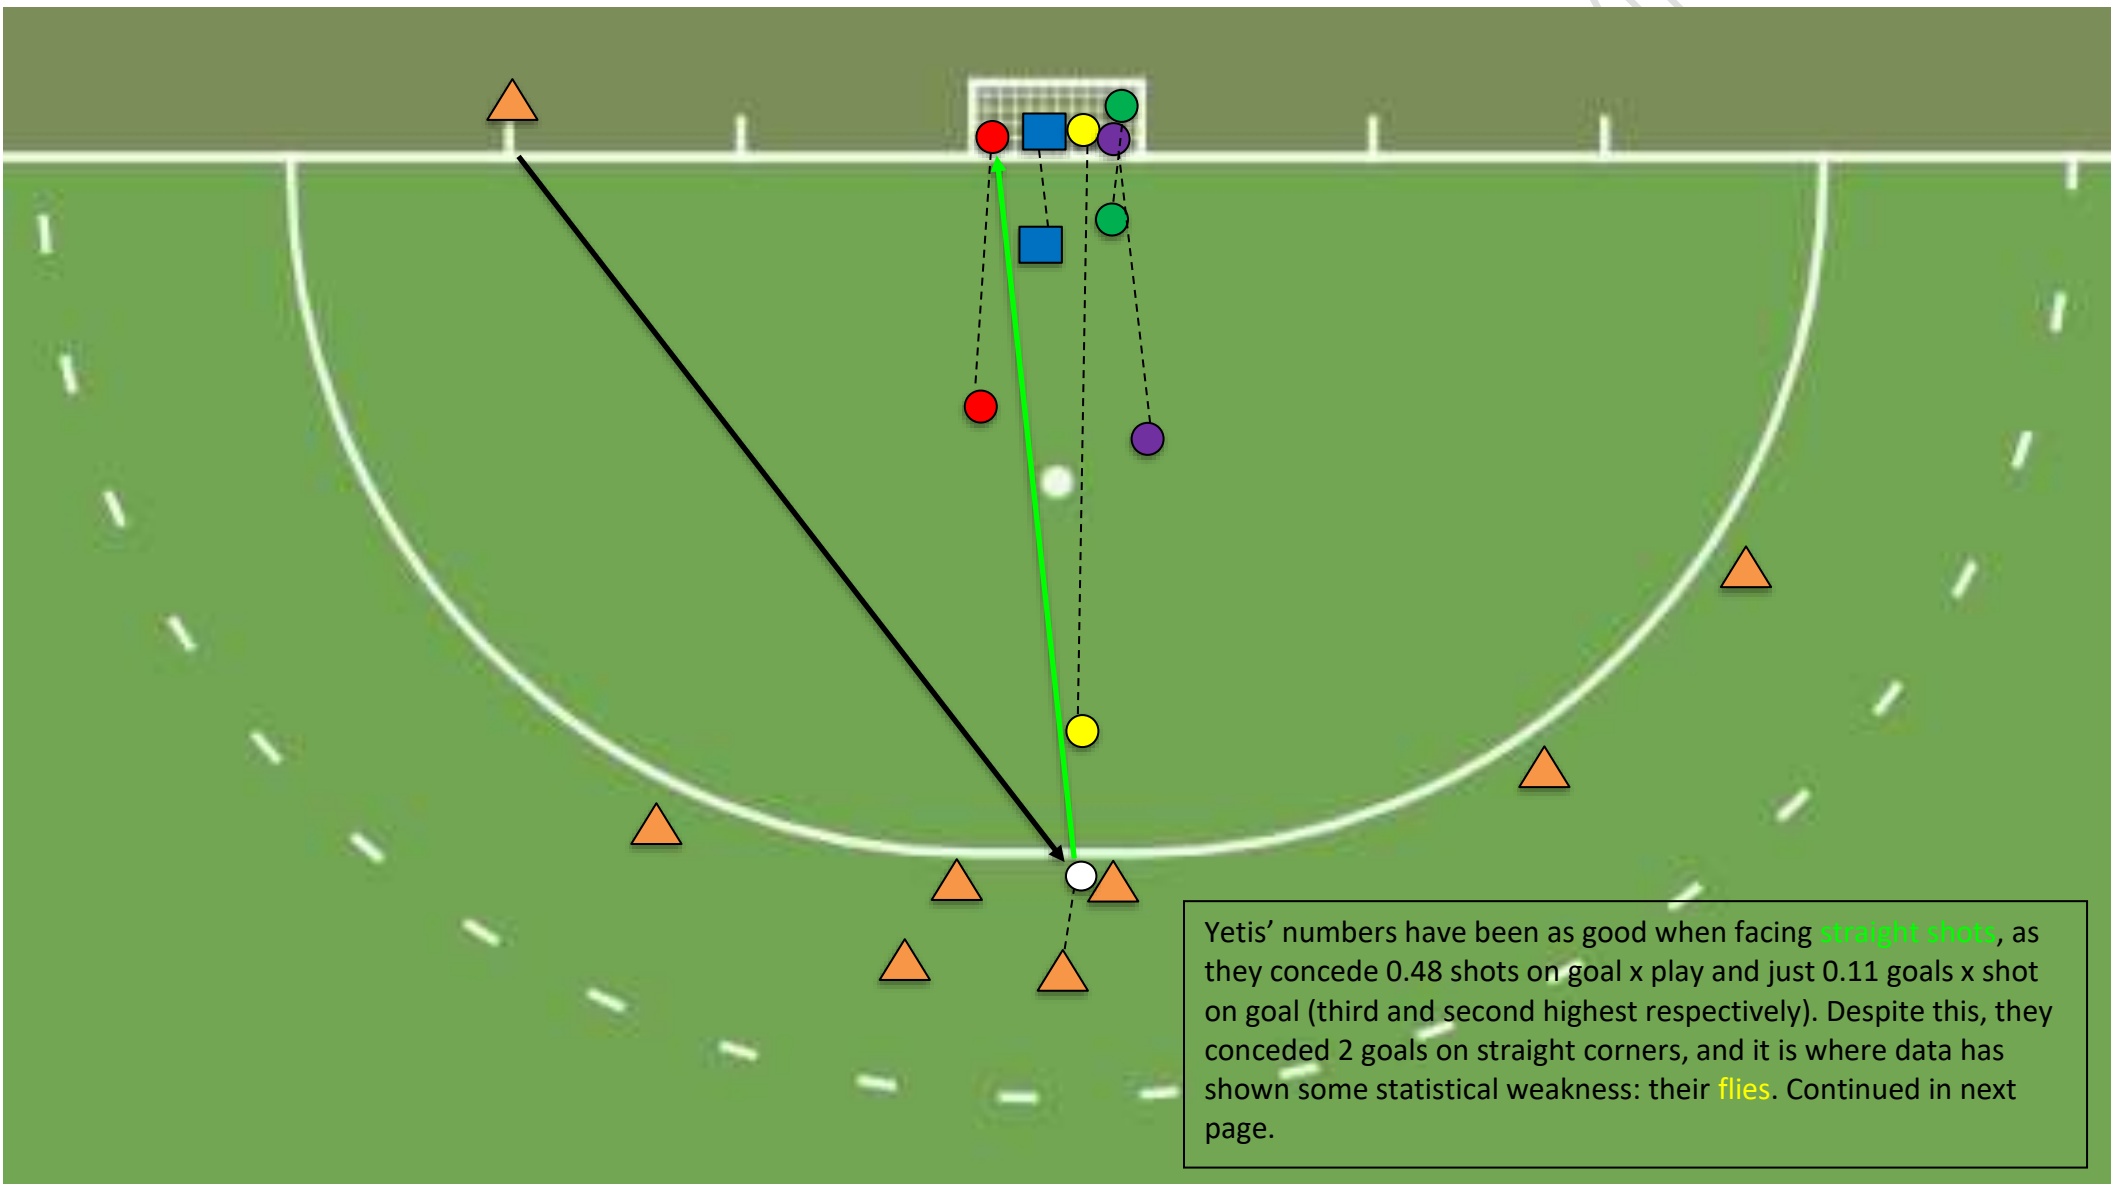

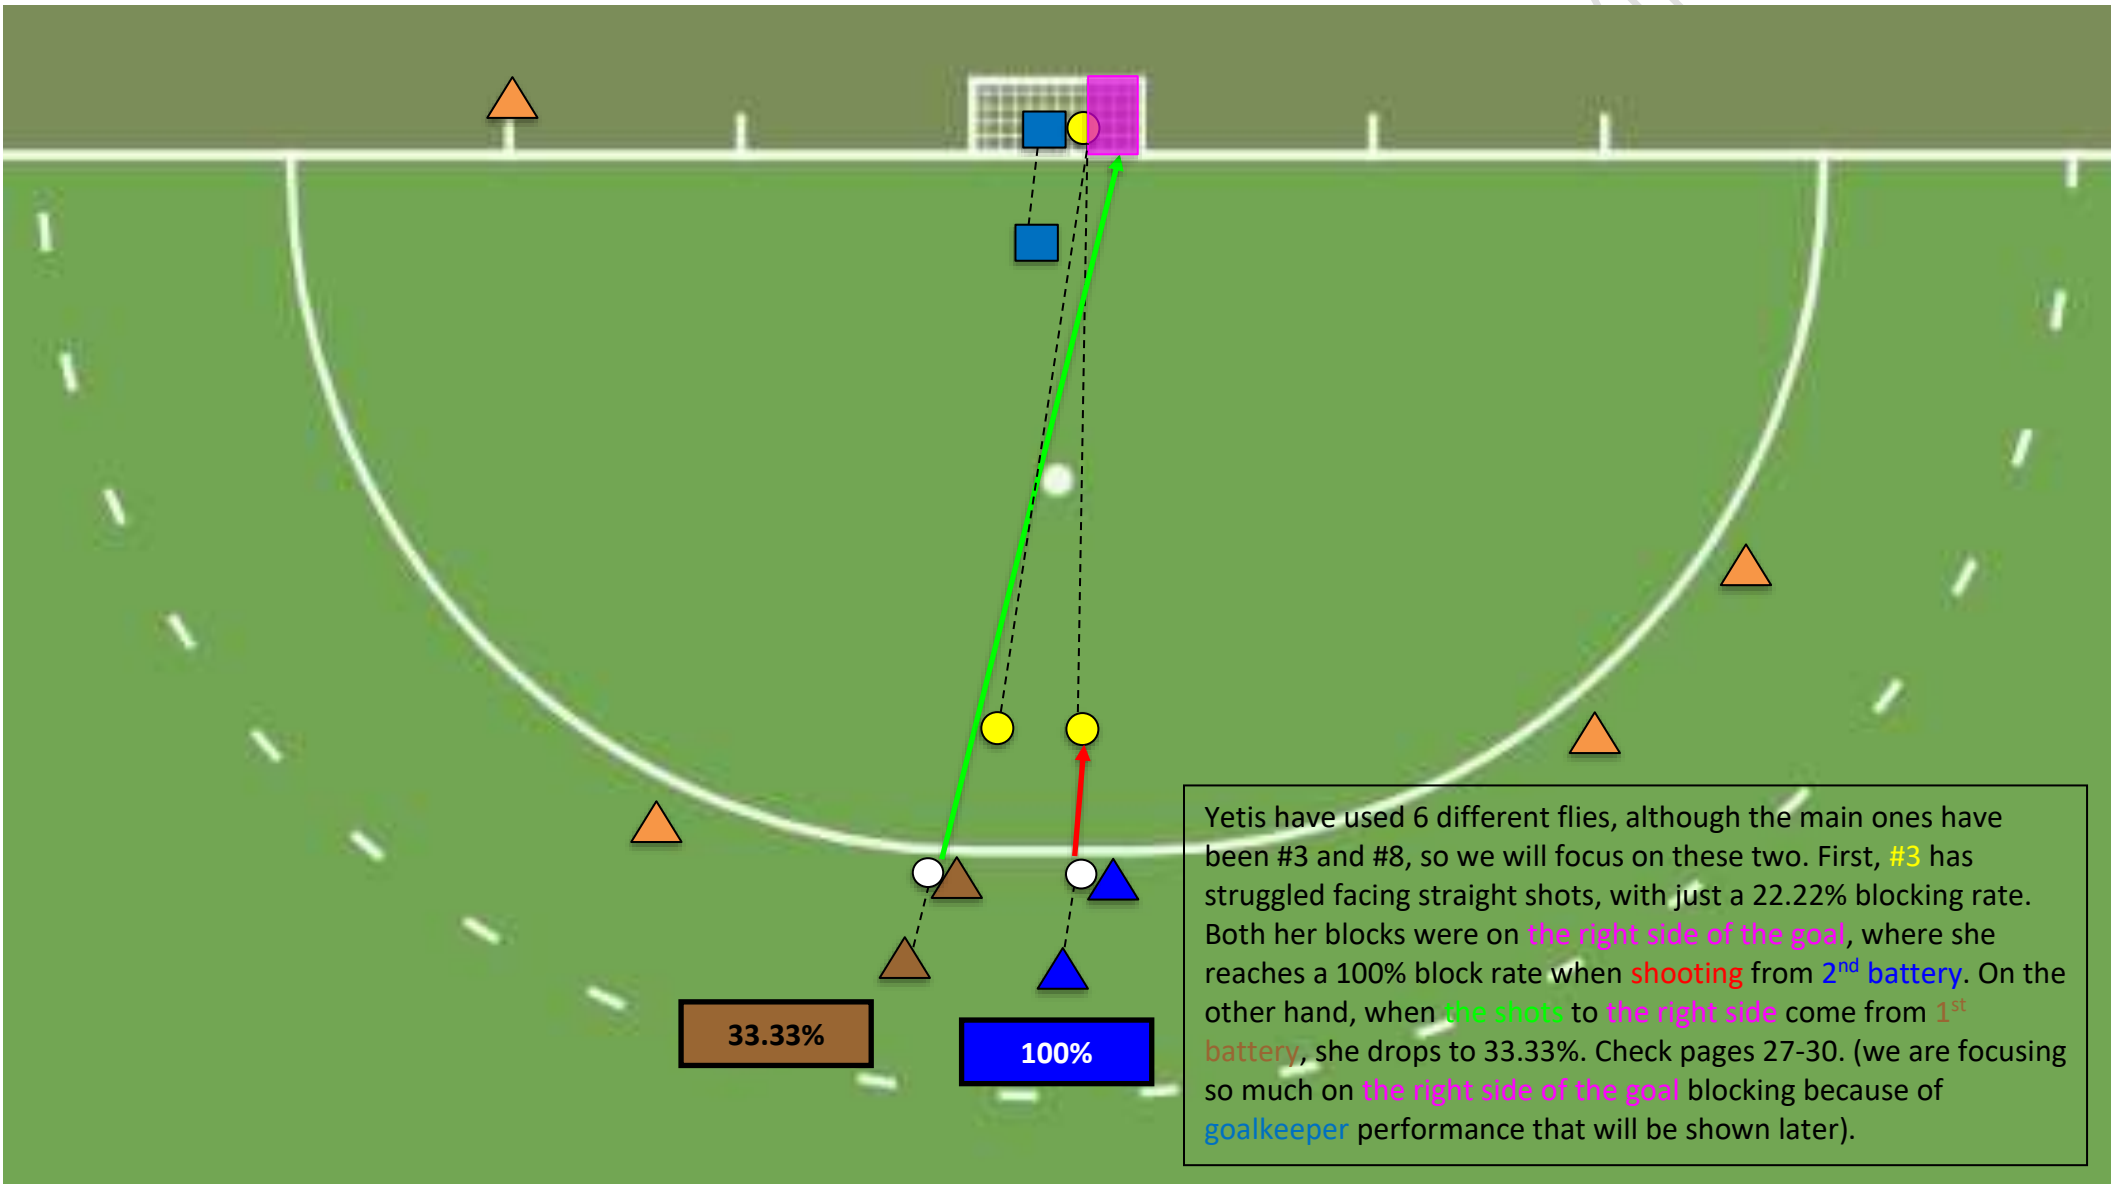

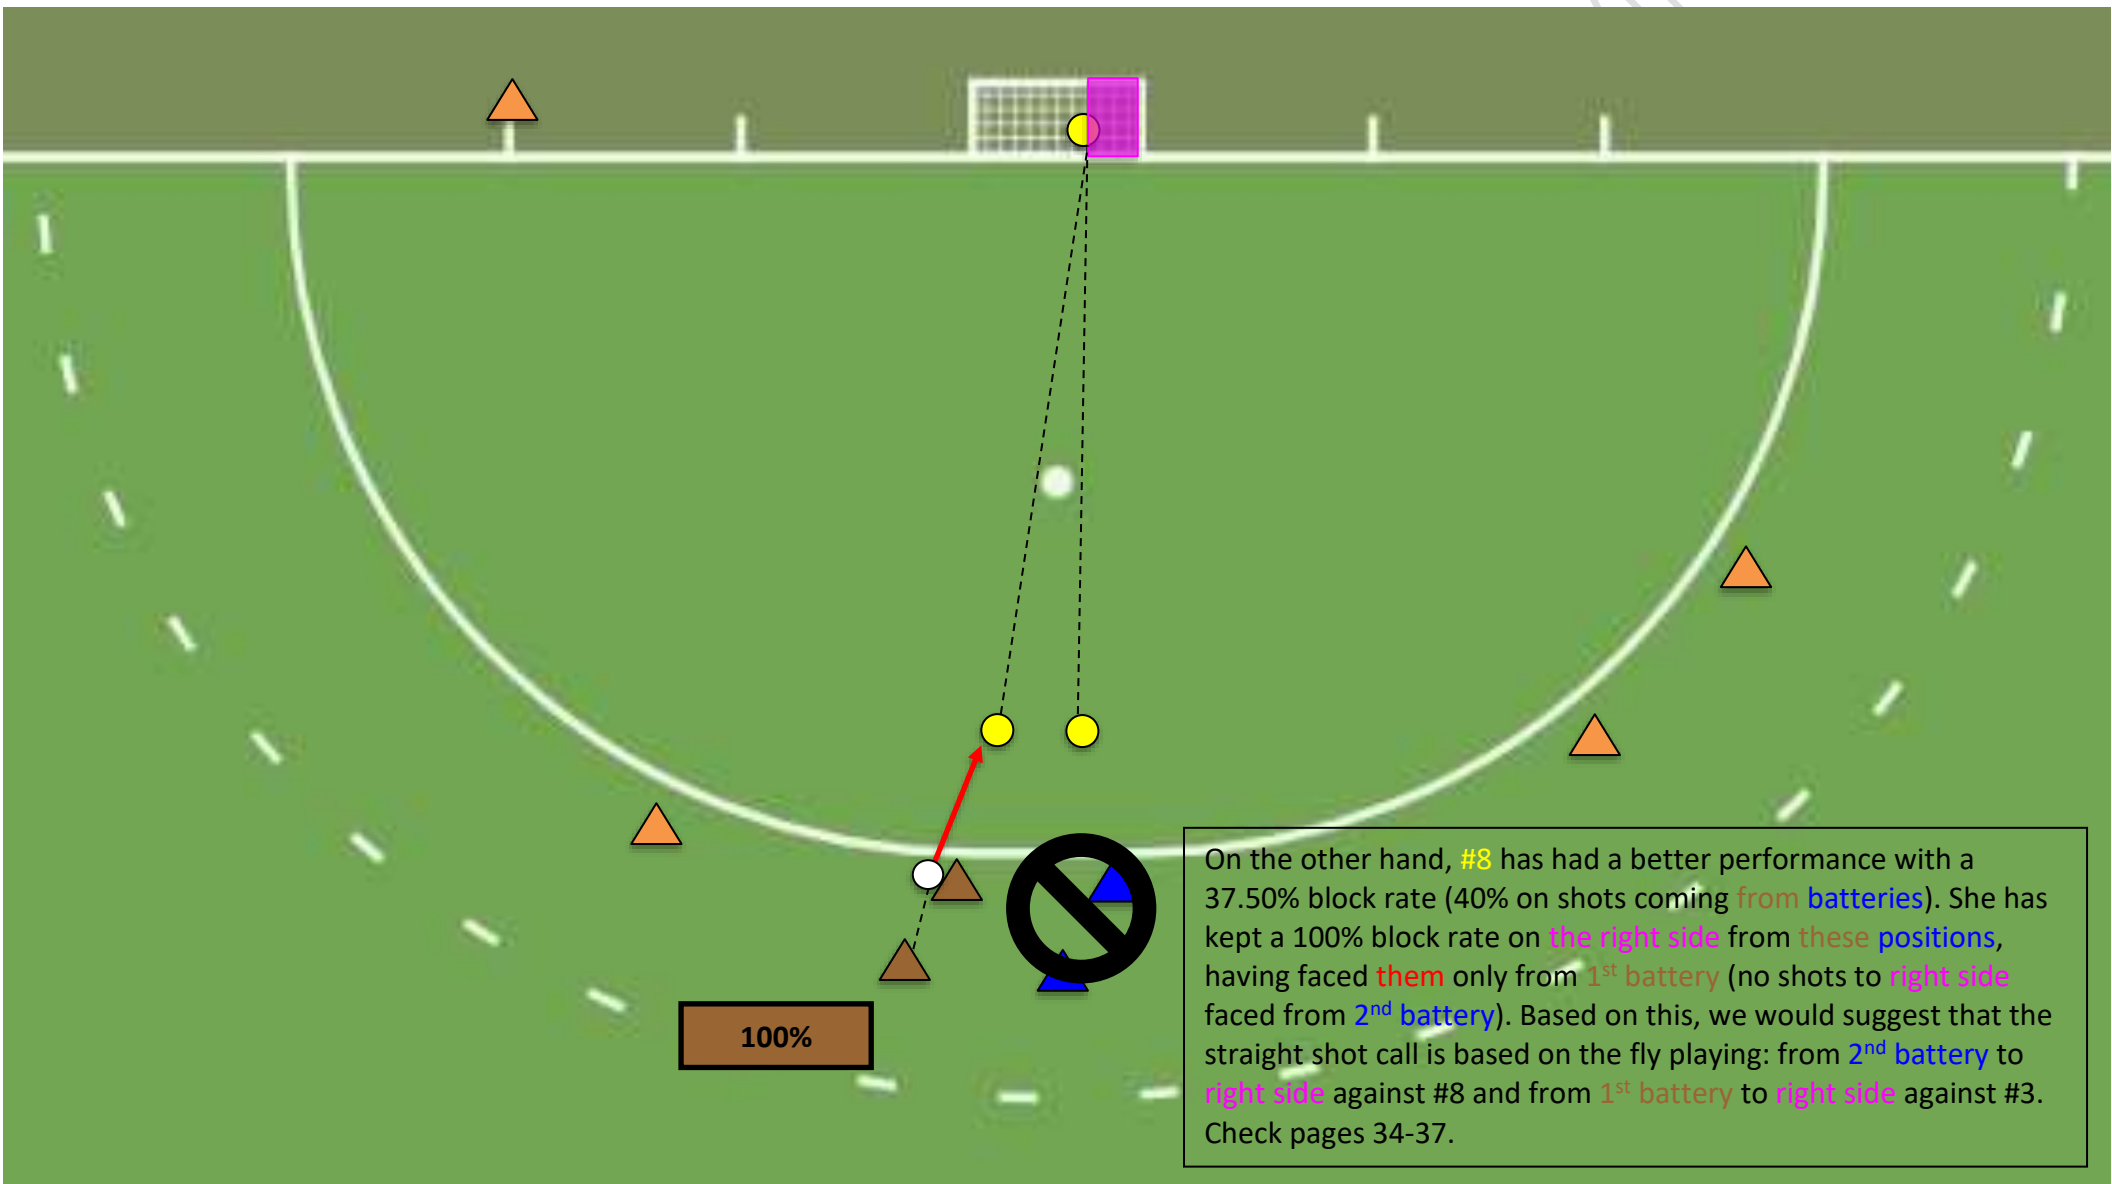

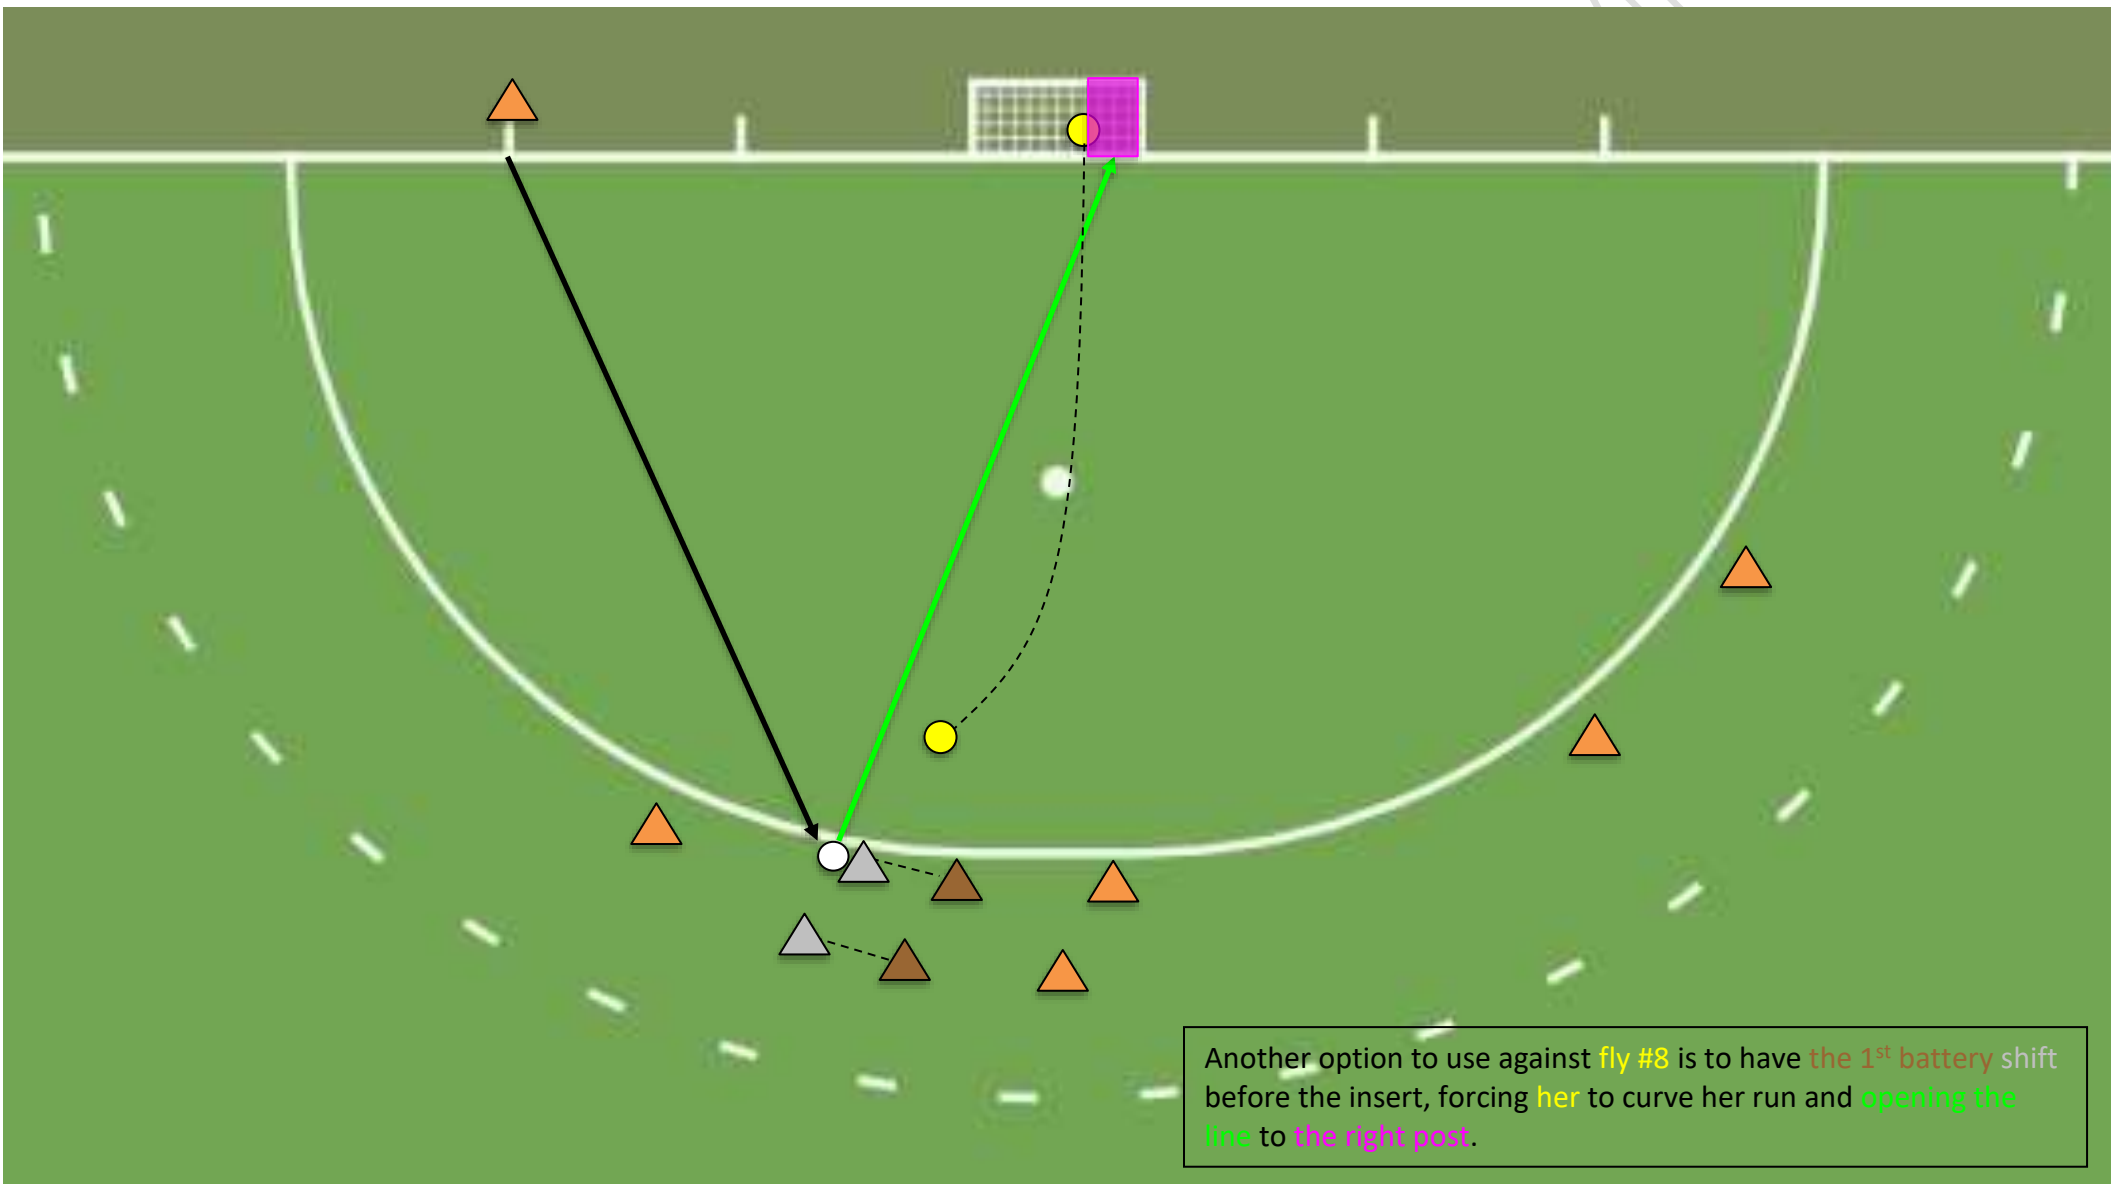

Another play that could explode these set of tendencies by the Yetis and with which we have scored against them before is 261: pass from 2nd battery to short who sweeps crossed finding the tip from the stickstopper on 1st battery in front of goal. It is key the paper from the player on position 3, as she should go to the left trail's height but staying wide to keep the tip open.

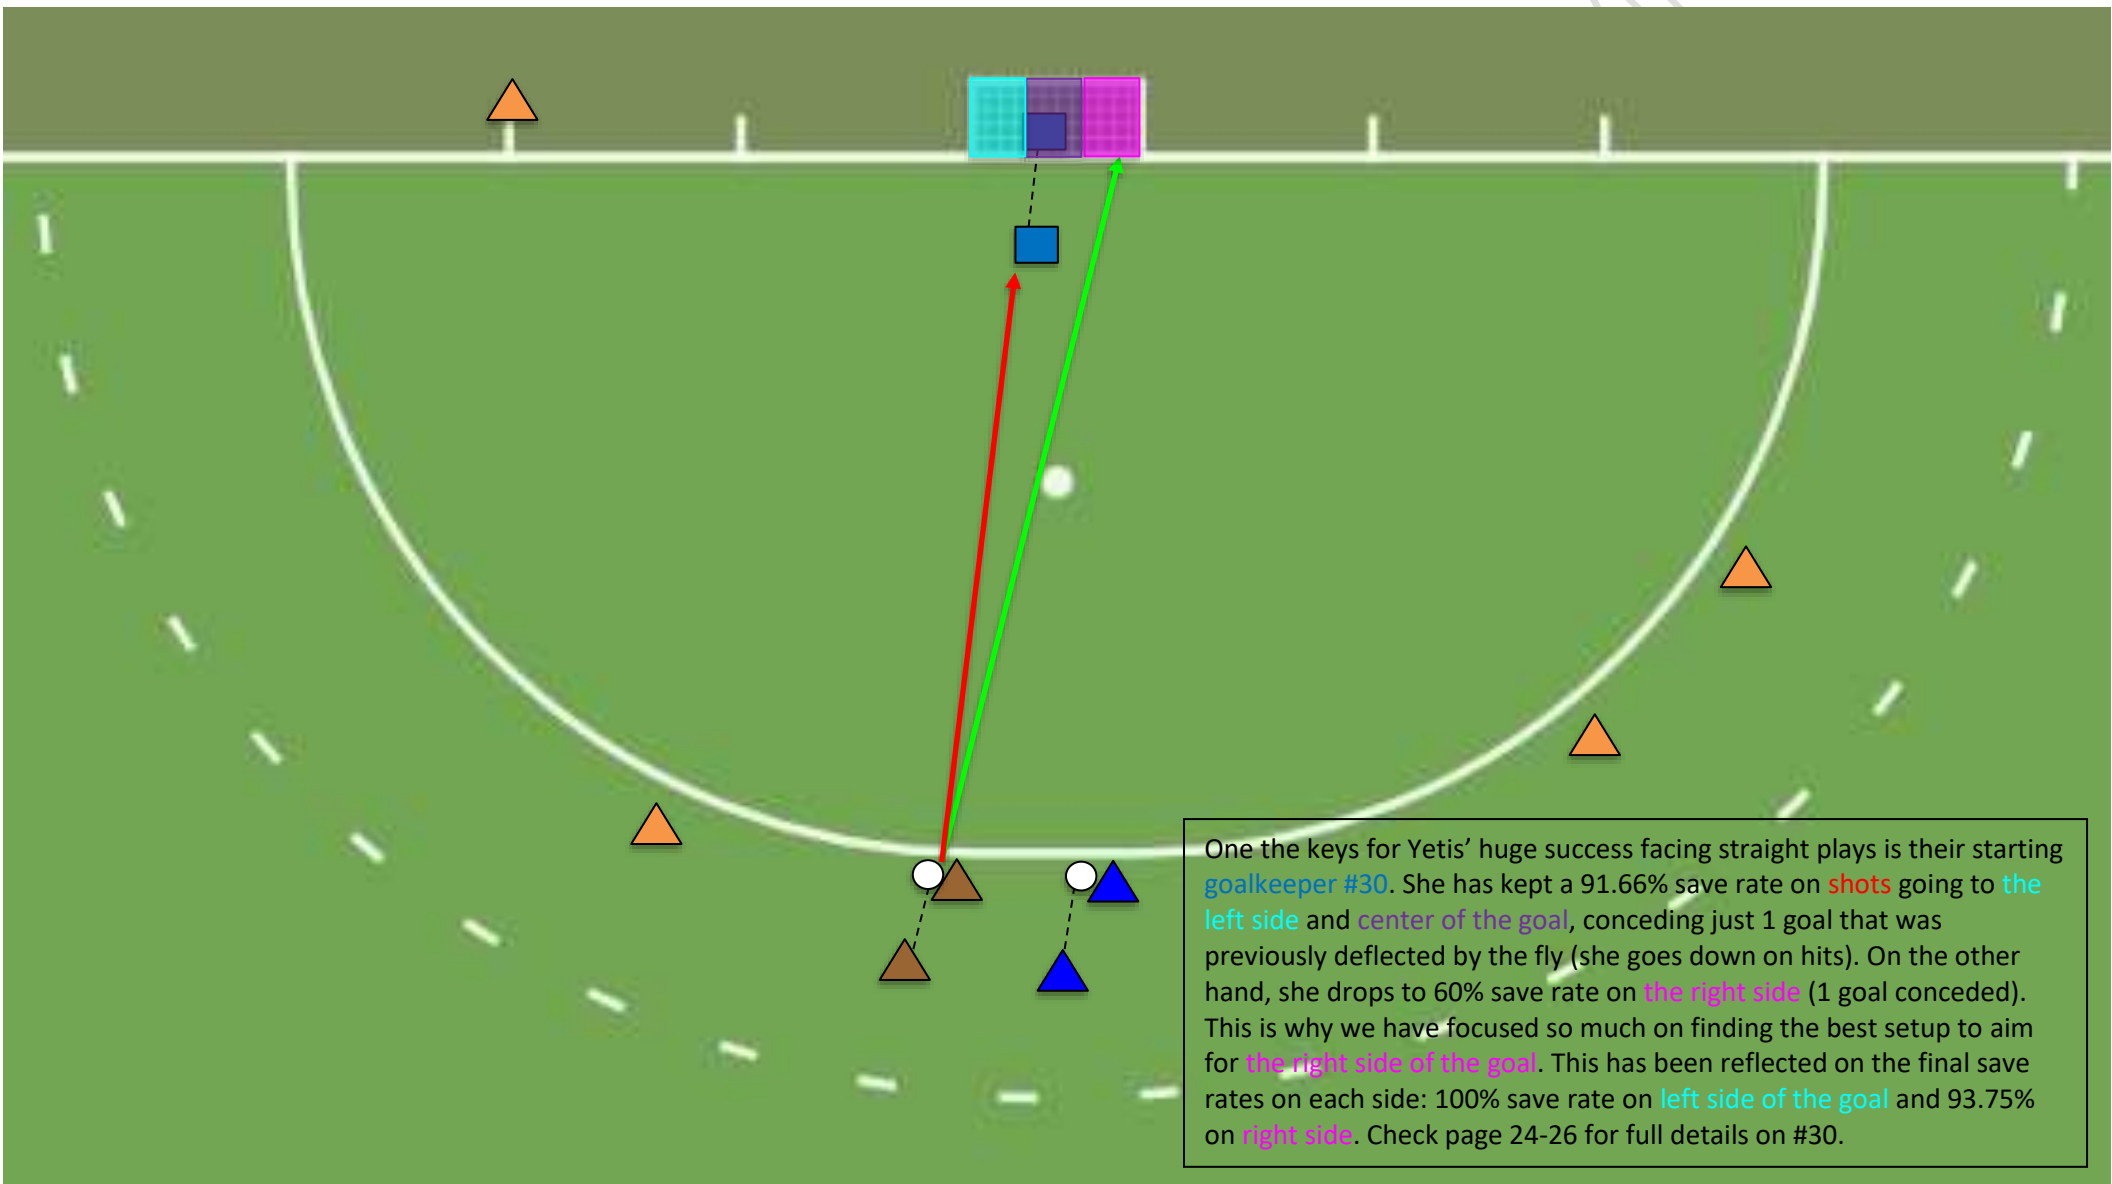

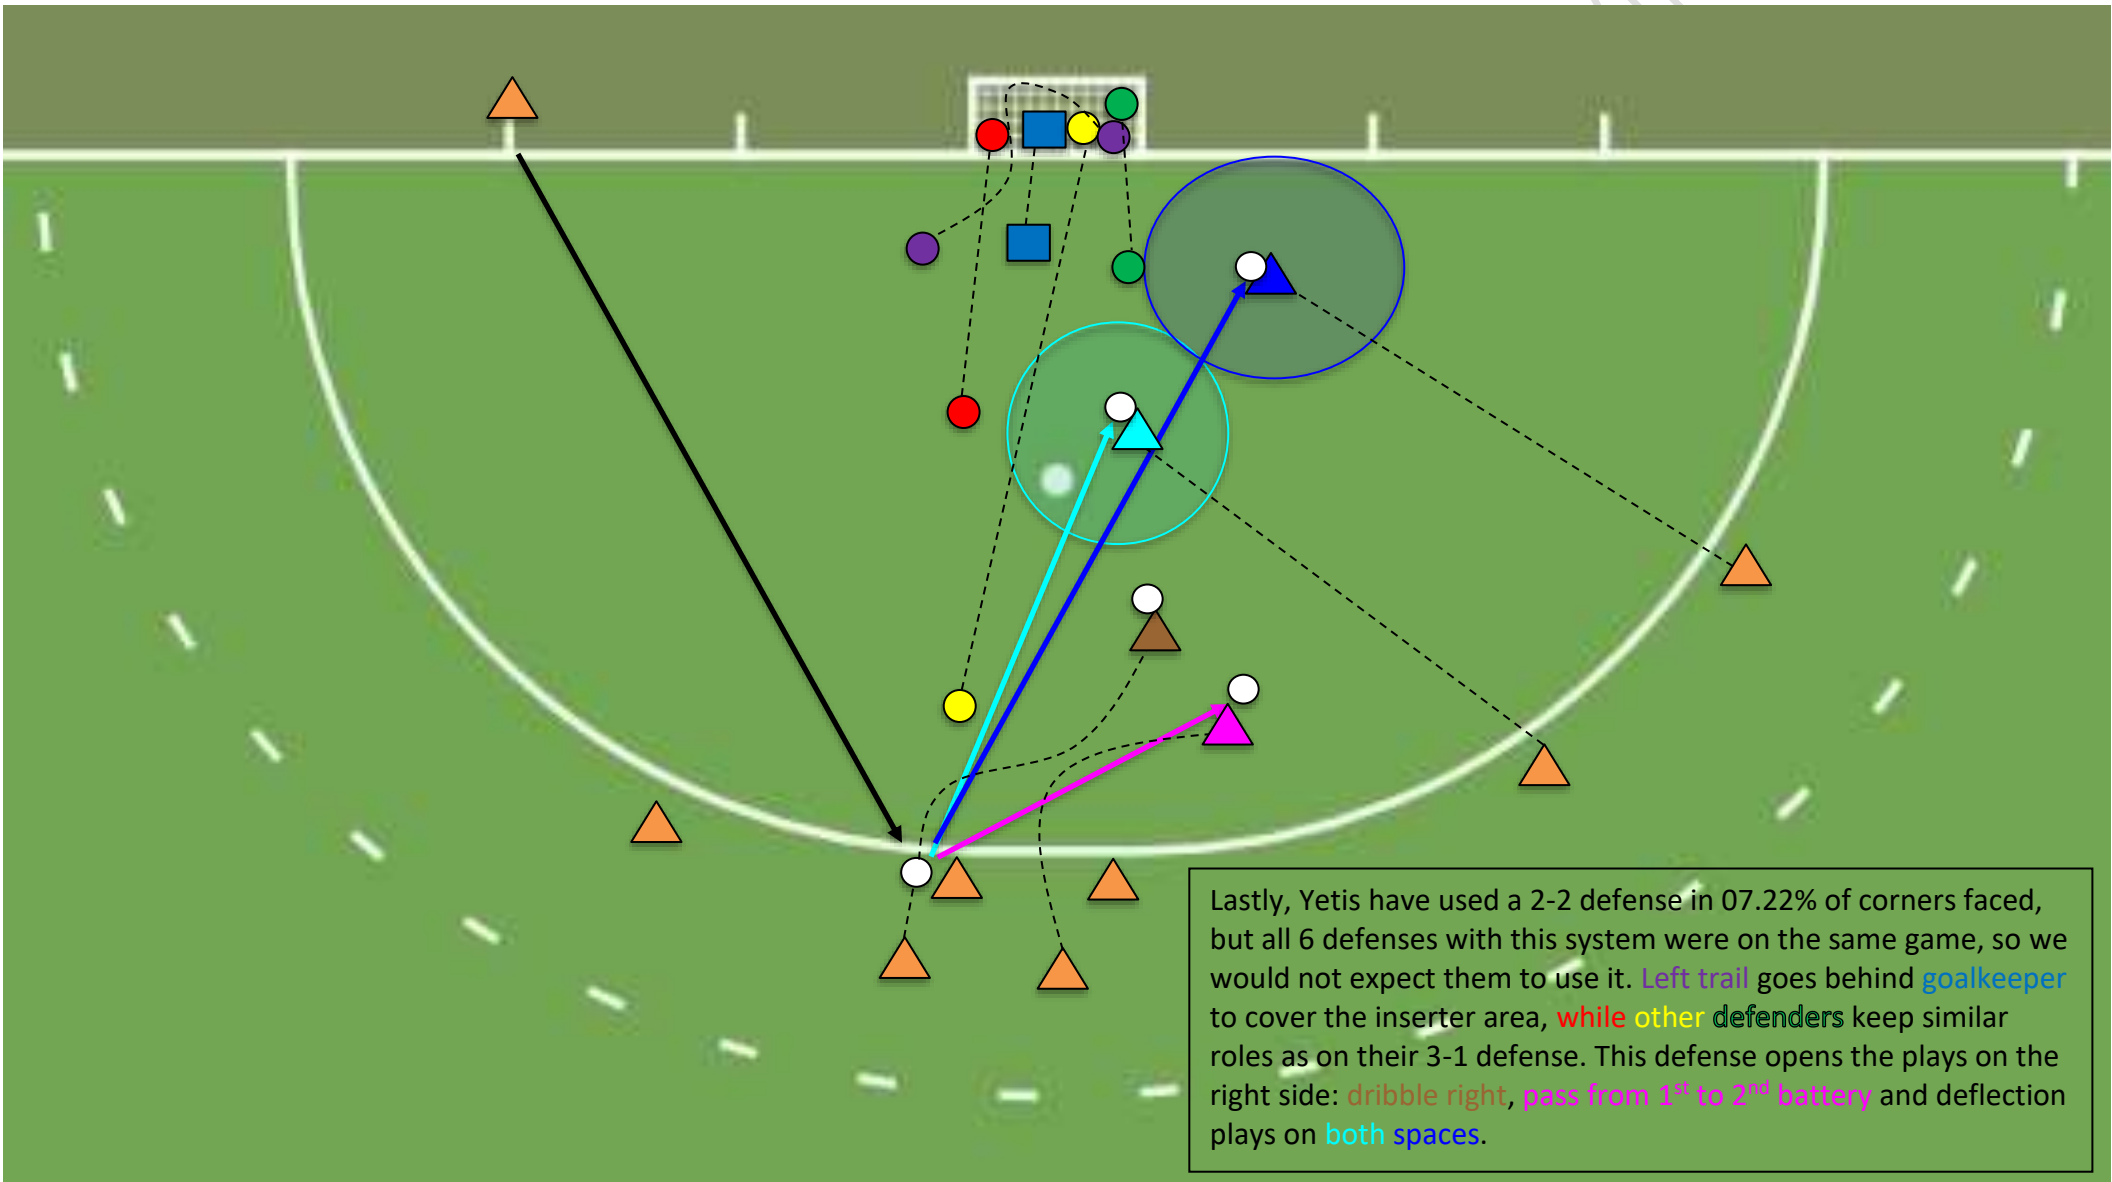

**PLAY CALL SUGGESTIONS****Non-straight**

- 25 on outside channel (short going in with right trail to drag her inside)
- 261 (player on position 3 going in but staying wide to drag left trail wide, opening space for stickstopper on 1st battery)
- 25D on inside channel (short going in but staying wide to drag right trail wide)
- 121 (short staying at top of the circle to keep right trail deep)
- 24D on outside channel (player on position 3 going in with left trail to drag her inside)
- 21D (short going in with right trail faking a tip + stickstopper on 1st battery attacking same space higher)
- 24D on inside channel (player on position 3 going in but staying wide to drag left trail wide)
- 62D
- 15 on outside channel (short going in with right trail to drag her inside)
- 26

Straights**With #3 as fly**

- 1Hit (to right sided of the goal)
- 1Drag (to right side of the goal)
- 1Sweep (to right side of the goal)

Without #3 as fly

- 2Hit (to right side of the goal)
- 2Sweep (to right side of the goal)
- 2Drag (to right side of the goal)
- 1Hit with battery shift (to right side of the goal)
- 1Drag with battery shift (to right side of the goal)
